WANT TO KNOW WHAT IS "AMERICAN LANGUAGE"

(By Associated Press)

HONOLULU, T. H., May 21.—Representative David Kuphea would have congress amend the organic act of the territory to make it read that proceedings of the legislature be conducted in the "American" language.

The house passed the resolution to this effect, but it met with a power in the senate when President Charles "Chillingworth" at the suggestion of Senator Charles Rice, referred it to the education committee to "determine just what the American language is."

Monday, Nazimox in her latest picture, "Billions."

Regular dance, jazz orchestra, Saturday night, Aldome. M20 21.

FOR THE CORRECTION OF POSSIBLE MISUNDERSTANDINGS

For the correction of possible misunderstandings, on the part of employees, citizens and others interested, as to the position of the mine operators of the Tonopah and Divide districts, whose properties are at present inoperative, the following is submitted:

There is and has been no intention to take advantage of the prevailing industrial conditions to cut wages. The new scale of wages was made effective as an economic necessity and with the object of enabling the lower grade ores, of which very large tonnages are available in the mines, and which could not be handled under previous high cost conditions, to be mined and treated. By the utilization of these low grade ores the profitable life of the mines and the consequent continued prosperity of the camp, will be greatly extended. Under present conditions it is particularly incumbent upon all employees, employers and citizens, alike, to aid in tiding over the financial depression.

The new wage scale was determined upon as the highest that could be paid, with no thought of further reduction so long as general conditions allowed operations to be continued and with the specific object of keeping the Tonopah wage scale, in the future as well as in the past, higher than the scales of other mining districts of the country.

The mines will be operated on the new wage scales as and when it is possible to operate. Because of the exodus of miners and other workers from the district it appears imperative to recruit labor from outside, but former employees who are willing to contentedly return to work will be welcomed.

Nothing can obstruct the continued operations of the mines and the prosperity of the community excepting preventive measures that may be taken by labor agitators and others and it is earnestly hoped that such preventive measures will not be used.
